

Bubbly

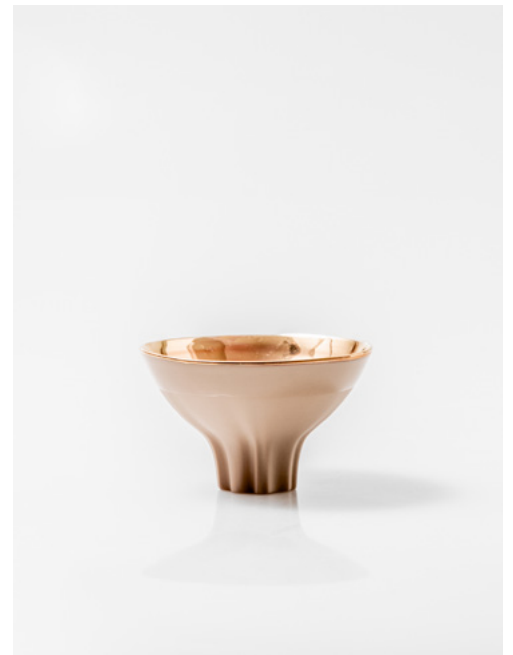

Colour Palette

Our BUBBLY champagne coupes are available in either Cream or Nude. The interior is glazed and hand-gilded with a layer of 24k liquid gold, then fired a third time at 800 °C to enhance both its functionality and visual appeal. The exterior remains unglazed (bisque), giving it a soft, matte finish, while the rim is glazed for the ultimate drinking experience.

Each piece is carefully hand-crafted—combining contemporary design with traditional techniques. The porcelain is finely cast and fired at high temperatures to ensure strength and lasting durability.
