

Each color of our sustainable RAW porcelain body is re-processed in small batches of approximately 40 liters, using 100% recycled porcelain sourced from leftover materials across all our collections.

The result: truly one-of-a-kind colors that cannot be exactly reproduced — no two pieces are ever alike.

We divide them into two color schemes: RAW Cool and RAW Warm.

● RAW Cool (Blue, Green, Grey - Tones)

● RAW Warm (Red, Peach, Nude, Grey - Tones)
